Unaudited - Prepared by Management

1. Nature of Operations

Continental Energy Corporation ("Continental" or the "Company") is an oil and gas exploration company engaged in the acquisition of a portfolio of oil and gas exploration properties with high potential resource prospects. Continental is focusing its efforts in Indonesia where large tracts of acreage can be accumulated, there is a history of oil exploration success, and geological conditions are favorable for hydrocarbon accumulation. Continental is an exploration stage company and none of its oil and gas properties currently generate revenue.

These financial statements have been prepared on a going concern basis, which assumes that the Company will be able realize its assets and discharge its liabilities in the normal course of operations. Should the Company be unable to continue as a going concern, it may be unable to realize the carrying value of its assets and meet its liabilities as they become payable.

2. Significant Accounting Policies

a) Basis of Presentation

These financial statements have been prepared in accordance with Canadian generally accepted accounting principles and follow the same accounting policies and methods of their application as the most recent annual financial statements, except as noted below. These interim financial statements should be read in conjunction with the audited financial statements of the Company as at 30 June 2006. All amounts in these financial statements are expressed in United States dollars.

b) Consolidation

These interim consolidated financial statements include the accounts of the Company and its one subsidiary and one joint venture company as follows:

- TXX Energy Corporation ("TXX"), incorporated in the state of Texas – 100% owned (Inactive)
- CG Xploration Inc. ("CGX") – 50% owned joint venture incorporated in the state of Delaware which has been accounted for on the proportionate consolidation method whereby the Company's proportionate share of assets, liabilities, revenues, costs and expenditures relating to CGX have been recorded in these financial statements.

These interim consolidated financial statements also include the accounts of three former subsidiaries as follows:

- Continental-GeoPetro (Bengara-II) Ltd. ("Bengara"), incorporated in the British Virgin Islands (*Note 4a*) – 60% owned until 29 September 2006 at which time 70% of the Company's interest was sold. The Company's remaining 18% is now accounted for on an equity basis
- Continental-GeoPetro (Yapen) Ltd. ("Yapen"), incorporated in the British Virgin Islands (*Note 4a*) – 60% owned until 26 October 2005 at which time 100% of the Company's interest was sold
- GAT Bangkudulis Petroleum Company Ltd. ("GATB"), incorporated in the British Virgin Islands (*Note 4b*) – 70% owned until 31 July 2005 at which time 100% of the Company's interest was sold

All intercompany transactions are eliminated upon consolidation.

Continental Energy Corporation*(An Exploration Stage Company)***Notes to Interim Consolidated Financial Statements****30 September 2006***U.S. Funds**Unaudited - Prepared by Management***3. Fair Value of Financial Instruments**

The Company's financial instruments consist of cash, other receivables, accounts receivable and accounts payable. The carrying value of these financial instruments approximates their fair value due to their short-term maturity or capacity of prompt liquidation. Except as noted below, it is management's opinion that the Company is not exposed to significant interest, currency or credit risks arising from the financial instruments.

The Company is exposed to currency risk in that some of its subsidiary operations are transacted in Indonesian Rupiah. The U.S. dollar value of the assets and liabilities of the subsidiary denominated in Rupiah will fluctuate due to changes in foreign exchange. The Company does not use any hedging instruments to reduce its foreign currency exposure.

4. Resource Property Costs – Continued

a) Bengara and Yapen

By separate share purchase and transfer agreements (“SPTA”) with effective dates of 1 August 1998 and subsequent amendments between 30 September 1998 and 19 January 2000, the Company purchased 100% of the issued and outstanding shares of Bengara and Yapen, two British Virgin Island companies with oil and gas exploration activities in Indonesia. The Company accounted for the acquisition of the subsidiaries using the purchase method of accounting for a business combination. Included in the Company’s statement of operations are the results of operations of both subsidiaries from the date of acquisition to 29 September 2006 for Bengara (Note 4avi) and up to 26 October 2005 for Yapen (Note 4av).

Bengara

Bengara was incorporated in the British Virgin Islands on 9 September 1997 and on 4 December 1997 entered into a production-sharing contract (“PSC”) with Badan Pelaksanaan Minyak dan Gas Bumi (“BPMIGAS”), the Oil & Gas Governing Authority (formerly, PT Pertamina (Pesero) (“Pertamina”), the Indonesian government’s state owned oil and gas enterprise). The Bengara-II PSC grants Bengara the exclusive authority, for a term of 30 years, to conduct petroleum exploration, development and production operations in an area of approximately 3,650 square kilometers known as the Bengara II Block area, East Kalimantan.

Pursuant to the Bengara-II PSC as currently amended, Bengara undertook a cumulative expenditure commitment through the initial ten year PSC exploration period ending 4 December 2007 which totals \$25,000,000, of which approximately \$6,300,000 has been spent as of 29 September 2006.

The Company’s activities within the Bengara-II PSC contract area are currently in the exploration stage and no crude oil or natural gas revenues are being generated within the contract area. The Company considers the Bengara-II PSC contract area to be a promising oil, gas and condensate exploration area but to date has not identified any resource. Bengara owns an undivided 100% controlling interest in the Bengara-II PSC.

Due to exploration risk and the overall uncertainty of drilling results on exploration properties the Company determined that the recoverability of the costs associated with Bengara to which Bengara is entitled under the PSC upon commencement of oil or gas production is uncertain, consequently the Company wrote down the carrying value of the Bengara-II PSC property to \$1 in the fiscal year ended 31 July 2003. The Company continues to evaluate expenditures for impairment and writes off impaired costs in the period when such determinations are made.

On 29 September 2006, the Company entered into a farm-out agreement that reduced its interest in Bengara to 18% (Note 4avi).

Yapen

Yapen was incorporated in the British Virgin Islands on 8 January 1998 for the purpose of holding the Yapen PSC with BPMIGAS, which was signed on 27 September 1999. Prior to its farm-out agreement with Medco (Note 4aii), Yapen owned a 100% controlling interest in the PSC. However, as a result of the Medco farm-out agreement and Medco’s subsequent farm out to Maraja (Note 4aiv), Yapen retained only a 10% interest in the Yapen PSC. On 15 August 2005, Yapen reacquired a 75% interest (Note 4aiv). During the 2005 fiscal year, the Company sold its interest in the Yapen subsidiary (Note 4av).

a) Bengara and Yapen – Continued

Yapen – Continued

Due to exploration risk and the overall uncertainty of drilling results on exploration properties the Company determined that the recoverability of the costs associated with Yapen to which Yapen is entitled under the PSC upon commencement of oil or gas production is uncertain, consequently the Company wrote down the book value of the Yapen PSC property to \$1 in the fiscal year ended 31 July 2003.

Since entering into the Bengara and Yapen PCSs, the Company or the Bengara and Yapen subsidiaries have entered into several farm-out agreements with various joint venture partners. As part of the agreements, the joint venture partners are required to pay their share of incurred costs such that the interests in the properties are retained.

Bengara and Yapen Farm-Outs

i) GeoPetro Resources Company ("GeoPetro") - Yapen and Bengara Farm-Out

The Company and GeoPetro of San Francisco, California entered into a Farm-Out Agreement ("FOA") dated 1 January 2000 pursuant to which the Company farmed out 40% of its 100% interest in each of the Yapen and Bengara subsidiaries and their respective underlying properties. Joint Operating Agreements ("JOA") also dated 1 January 2000 between GeoPetro and the Company provide for joint venture operations of the Yapen and Bengara subsidiaries. Under these JOA the Company is obliged to contribute its 60% share of Yapen and Bengara PSC work commitments and expenditures and is entitled to take a 60% share of all revenues realized by the subsidiaries from the Yapen and Bengara PSCs.

In a letter agreement dated 27 October 2005 the Company and GeoPetro agreed to terminate the provisions of the GeoPetro FOA pertaining to Yapen and to terminate in its entirety the Yapen JOA. These terminations coincided with the sale by the Company and by GeoPetro of all of their respective shares of Yapen to Nations (Note 4av). As of 27 October 2005 the Company no longer has any interest in, entitlements to or obligations in respect of the Yapen PSC.

As part of the closing documents signed 28 September 2006 with CNPC-HK (Note 4avi) the GeoPetro FOA and GeoPetro JOA pertaining to Bengara-II were terminated.

ii) Medco International Ventures Ltd. ("Medco") - Yapen Farm-Out

On 5 November 2002, the Company's subsidiary, Yapen, completed an agreement to farm out 90% of its PSC to Medco. As a result of this Medco farm-out agreement, Yapen assigned 90% of the Yapen PSC to Medco and Yapen retained a 10% interest in the Yapen PSC. Medco subsequently farmed out a 75% share of its Yapen PSC to Maraja (Note 4aiv) but Yapen's 10% interest was unaffected.

iii) China Wisdom International (HK) Ltd. ("China Wisdom") - Bengara Farm-Out

During the 31 July 2003 fiscal year, the Company and its farm out partner, GeoPetro, entered into an agreement with an unrelated partner, China Wisdom, to dispose of 40% of the Bengara subsidiary.

The agreement was terminated during the 2004 fiscal year due to China Wisdom's default and failure to fulfill its drilling obligations under the farm-out agreement.

4. Resource Property Costs – Continued**a) Bengara and Yapen – Continued****Bengara and Yapen Farm-Outs – Continued**

During the 2006 fiscal year, Geopetro reimbursed the Company in the amount of \$100,000 for prior costs incurred by the Company in respect of the China Wisdom farm-out. This has been recorded as terminated farm out proceeds in the statement of operations.

iv) Maraja Yapen Energy Ltd. ("Maraja") - Yapen Farm-Out from Medco

Pursuant to a farm-out agreement with Maraja dated 28 June 2005, Medco farmed out a 75% share of its Yapen PSC interest to Maraja and Yapen's 10% interest in the Yapen PSC was unaffected. Maraja failed to perform its obligations to Medco under the said farm out agreement resulting in Maraja's breach of contract and consequently in accordance with the provisions of the farm-out agreement Maraja's 75% interest in the Yapen PSC was reassigned to Yapen in a deed of assignment dated 15 August 2005. The Company realized no proceeds from the reassignment.

v) Nations Energy Company Ltd. ("Nations") Yapen Sale

Pursuant to a share sale and purchase agreement dated 26 October 2005, the Company and GeoPetro sold 100% of their respective shares of Yapen to Nations, an unrelated buyer, for \$6,000,000 cash. The Company was paid and received its 60% share of the Yapen sale proceeds of \$3,600,000 at closing.

This transaction resulted in a gain of \$3,506,833 net of associated costs, calculated as follows based on the net book values recorded in Yapen as at 26 October 2005:

Assets	\$	1
Liabilities		-
Net book value of Yapen		1
Proceeds on disposition, <i>net of bonuses and legal costs</i>		3,506,834
Gain on disposition of Yapen	\$	3,506,833

In recognition of exceptional service to the Company and its shareholders in their respective capacity and influence in concluding the Yapen sale to Nations the Company authorized on 1 December 2005 payment of cash bonuses totaling \$90,000 to two executive officers.

vi) CNPC (Hong Kong) Limited ("CNPC-HK") Bengara Sale

During the current period, the Company sold 70% of its 60% interest in Bengara and its Bengara-II PSC to CNPC-HK, an unrelated buyer, for \$21,000 cash on September 29, 2006. The Company retained an 18% shareholding of Bengara.

To earn its 70% stake in Bengara, CNPC-HK paid an Earning Obligation in cash in the amount of \$18,700,000 into Bengara to be used exclusively to pay for work in the Bengara area, including the drilling of four exploratory wells and including the Company's 18% share of such costs. CNPC-HK will also pay 100% of the exploration and development work, including the Company's 18% share of such costs, until the earlier of 1) an additional amount of \$41,300,000 over and above the Earning Obligation funds has been expended or 2) the month after the first commercial lifting of crude oil from the Bengara area is delivered and sold. In addition, CNPC-HK will pay a cash bonus in the amount of \$3,000,000 to the Company contingent upon the first commercial oil and gas discovery within the Bengara area.

4. Resource Property Costs – Continued**a) Bengara and Yapen – Continued****Bengara and Yapen Farm-Outs – Continued**

The Company recognized its portion of the proceeds, being \$21,000, as income. The net effect of this transaction was a gain of \$60,324 based on the net book values recorded in Bengara as at 29 September 2006.

Effective 29 September 2006, all consultant and rental contracts were terminated by Bengara due to the sale of majority interest to CNPC-HK. Bengara paid 3 months severance on these contracts totalling approximately \$133,000 of which the Company has paid its 60% share.

b) GAT Bangkudulis Petroleum Company Ltd. (“GATB”)

On 31 August 2001, the Company completed the acquisition of 70% of the issued and outstanding shares in GATB from Dimensions West Energy Inc. (“DWE”).

Prior to fiscal year end 31 July 2005, Pertamina gave notice to GATB in a letter dated July 2005 that it intended to terminate the Bangkudulis TAC together with several other Indonesian TAC's not yet in oil production. The TAC type contract is being discontinued in Indonesia.

The termination of the TAC eliminates the only material asset of GATB and consequently the Company sold its 70% share holding in GATB to an unrelated local investor for a nominal price of \$1,000 effective 31 July 2005. All of GATB's liabilities and fixed assets were sold with the shares. The Company no longer has any interest in, entitlements to or obligations in respect of GATB or the TAC.

The Company recognized its portion of the proceeds, being \$1,000, as income. The net effect of this transaction was a gain of \$4,059,868, calculated as follows based on the net book values recorded in GATB as at 31 July 2005:

Assets	\$	31,823
Current Liabilities		(682,979)
Contingent and Conditional Liabilities		<u>(3,407,712)</u>
Negative net book value of GATB		4,058,868
Proceeds on disposition		<u>1,000</u>
Gain on disposition of GATB	\$	<u>4,059,868</u>

The purchaser acquired the Company's interest in GATB for \$1,000 and assumed all the liabilities and obligations of GATB. Due to all of the fixed assets of the subsidiary having been written down to \$1 prior to the disposal, the GATB subsidiary had a consolidated negative net book value of \$4,058,868. Consequently, the disposal resulted in a gain on disposition.

6. Share Capital – Continued**f) Black-Scholes Option-Pricing Model Assumptions**

The fair value of each option grant is estimated on the date of grant using the Black-Scholes option-pricing model with the following assumptions:

	30 September 2006	30 June 2006	31 July 2005
Expected dividend yield	0.00%	0.00%	0.00%
Expected stock price volatility	91% - 99%	95% - 140%	117% - 140%
Risk-free interest rate	4.02% - 4.19%	2.90% - 4.44%	2.90% - 3.15%
Expected life of options (years)	0.79 – 2.79	1.02 – 3.42	1.04 – 2.08

The fair value of each warrant amendment is estimated on the date of amendment using the Black-Scholes option-pricing model with the following assumptions:

	30 September 2006	30 June 2006	31 July 2005
Expected dividend yield	0.00%	0.00%	0.00%
Expected stock price volatility	96%	95%	117% - 127%
Risk-free interest rate	4.02%	4.41%	3.03% - 3.15%
Expected life of warrants (years)	1.79	1.00 – 2.00	1.00 – 1.75

Option pricing models require the input of highly subjective assumptions including the estimate of the share price volatility. Changes in the subjective input assumptions can materially affect the fair value estimate, and therefore the existing models do not necessarily provide a reliable single measure of the fair value of the Company's stock options.

7. Related Party Transactions

All related party transactions have been disclosed elsewhere in these interim consolidated financial statements, except as follows:

- During the period, management, director, or officer fees in the amount of \$67,500 (2005 - \$67,500) were paid or accrued to directors of the Company or a director of one of the Company's subsidiaries. Of that amount, \$28,125 has been recorded in resource property costs.
- During the 2006 fiscal year, management wrote down a receivable of \$138,178 determined to be uncollectible which is owing from a company controlled by the estate for a deceased director. Management intends to pursue the full amount of the receivable until payment or settlement is reached.

The above transactions, occurring in the normal course of operations, are measured at the exchange amount, which is the amount of consideration established and agreed to by the related parties.

Continental Energy Corporation*(An Exploration Stage Company)***Notes to Interim Consolidated Financial Statements****30 September 2006***U.S. Funds**Unaudited - Prepared by Management***8. Income Taxes**

As at 30 June 2006, the Company has approximately CDN \$2,810,000 of losses for income tax purposes which may be used to offset future taxable income. These losses expire as follows:

2004	2014	444,000
2005	2015	352,000
		<u>\$ 2,810,000</u>

The Company has certain resource related expenses of approximately CDN \$1,938,000 which may be carried forward indefinitely and used to reduce future taxable income.

	30 June 2006	31 July 2005
Non-capital loss carry-forwards	\$ 893,923	\$ 999,498

In the current period, the Company sold 70% of its interest in its Bengara subsidiary and recorded a gain of \$60,324. During the three months ended September 30, 2006, the Company elected to remove certain accounts payable in the amount of \$91,163 off its books due to the fact that they were over 6 years old and the Company has received no correspondence from these vendors over this period. These payables were on the books of the Company when the current management took over the Company and have been maintained for conservative purposes, but upon legal advice they are now being written off resulting in a gain of \$91,163. During the current period the Company generated \$25,626 in interest income due to the large cash balance on hand. There was no interest in the comparative period.

General and administrative expenses increased by \$573,206 from \$143,990 to \$717,196 for the three months ended September 30, 2006 and three months ended October 31, 2005 respectively. The prior year costs were very low due to the fact that the Company was short of funds. After the Yapen sale the Company activity has picked up and therefore the costs have general and administrative costs have gone up. The significant changes to general and administrative expenses are as follows. The Company recorded stock-based compensation expense, relating to management and consulting contracts, of \$118,958 for the three months ended September 30, 2006 compared to \$Nil in the three months ended October 31, 2005. During the period, the Company amended the terms of certain share purchase warrants outstanding. Management fees increased by \$18,822 from \$72,749 to \$91,571. The increase is due to utilizing additional management staff in the Company's Indonesian operations over the prior year and severance payments made to Bengara staff upon disposition of the Company's Bengara subsidiary. The company utilized more consultants in the period and therefore spent \$23,754 which is an increase of \$21,649 over the prior period. Rent increased by \$53,148 from \$11,062 to \$64,210. The increase relates to higher premises costs in Dallas and Jakarta as well as early termination penalties for the premises in Jakarta due to the disposition of Bengara. Travel increased by \$106,902 from \$12,039 to \$118,941. The travel increase is due to the company's efforts to promote its properties and business plan as well as the establishment of strategic relationships throughout the world. Office expenses increased by \$78,738 from \$9,962 to \$88,700. The increase in office expenses is due to the increased activity of the Company and work done prior to selling the Bengara subsidiary. Professional fees increased by \$49,356 from \$11,901 to \$61,257. Investor relations expense amounted to \$10,928 in the current period while there was no similar expense in the prior period due to the lack of funds. The current period consisted of higher legal costs for various due diligence work which did not exist in the prior period. All other expense groups appear consistent with the comparative period and most decreased slightly.
